### Picanune. RECOGNITION OF TEXAS BY FRANCE.

The Liverpool bring the highly gratifying intelligence that a treaty of amity and commerce had been agreed upon between France and Texas, in which the independence of the latter was recognized. General Hamilton, one of the negotiators in behalf of Texas, who came a passenger on the Liverpool states that copies of the treaty in both languages had been exchanged previous to his departure, and that the Minister for Foreign Affairs, Mar shal Soult, mere y waited the return of the King to Paris, when it would be formally executed. Intimation are also given that Great Britain will soon follow the example o France. The negotiation for a loan of five millions of dollars, which Gen Hamiltan and Mr. Bursley wen out to effect, is said to be in a train which promises a successful and speedy accomplishment. The returns of the general election are re quired to be made to the Secretary within fifteen days after the election. The law silent as to the manner in which the return are to be forwarded. The u-ual practice has been to send them through the Post Office The law is imperative in requiring the returns to be made to the Secretary of State within fitteen days; and the returning officer is liable to a heavy penalty if they are not deposited with the Secretary in that time. OF THE TATE RIGHTS AND DEMOCRATIC UNION: BY W. M. TOLBERT & CO.

Having been solicated by the united request of he State Rights and Democratic parties of Alissisippl, and especially of this section of the state, we have been prevailed upon to publish a weakly newgaper, to support that creed of politics, which the name we have assumed demonstrates. Firmly prehaded that the libenies, prosperity, happines and indepedence of sunth, are deeply involved in these nomentous questions, now agirated throughout the Umon. The period is at hand, when it behances every friend of the South to avow and support those principles of right and interest, which we solemly laim by the charger of our confederation; to maintain the integrity of the constistution, the purity of the administration of the general government, and the sovereign independence, to which we are intitled o as a people.
The welfare of the south has been too fong neg

ected-her original magnanimity and bonor are fast inking into disrepute-our own state is a striking distance of this fact, and our supineness well night reduces us to northern vassalage, has disorganized a community at one time eminsntly prosperous-and estroyed the means of recovery from embarrassment Such a policy has prostrated our energies, lead

s into unwise projects, heaped upon us corrupt and approfitable corporations; which almost east a stiga upon the good faith and honor of the state. These errors should be corrected-the times demand itet us then resolve to rid us of them, and assume that enviable condition we formerly so proudly held for might and means should be exhibited to the reublic -- it is just to ourselves, we should do it, in orler to relieve us of that credulity of dependence, ing habit has engendered among us.

We hear speak to men of Southern principles, and those devoted to that original sense of government. oder which the constitution of this republic was areed upon and settled.

Our object is not to mar the good feelings of the orth and south, or to shake that amity which should exist between them, as a nation, but merely to vindirate those rights we are entitled to, and explain the onstitutional remedies by which we are protected
